

## Ayudas taxonómicas en internet

La siguiente información ha sido compilada por Allan Smith-Pardo, USDA APHIS, San Francisco, California, USA.

Revisión de especies de *Tetraserica* de China.

Liu W, Fabrizi S, Bai M, Yang X, Ahrens D .2014. A taxonomic review on the species of *Tetraserica* Ahrens, 2004, of China (Coleoptera, Scarabaeidae, Sericini). ZooKeys 448: 83-121. DOI: <http://dx.doi.org/10.3897/zookeys.448.8429>.

Revisión de especies de moscas de la fruta de Asia.

A study confirms that four of the world's most destructive agricultural pests, the Oriental, Philippine, Invasive and Asian Papaya fruit flies, are actually one and the same. The study took a multidisciplinary and integrated approach involving over 40 researchers from more than 20 countries and has major implications for global plant biosecurity, including reduced barriers to international trade, improved fundamental research and enhanced food security for some of the world's poorest nations. <http://www.fao.org/news/story/en/item/262972/icode/>

Wood boring beetles of the world.
