

CALL FOR SPONSORS

Latincrypt 2025
Medellín, Colombia
October 1-3

Latincrypt 2025 is the 9th edition of the International Conference on Cryptology and Information Security in Latin America, organized by the Universidad Nacional de Colombia Sede Medellín and Eafit University.

Latincrypt brings together scientists and practitioners in the fields of cryptography and information security to exchange the latest results in the field.

Purpose of Sponsorship

Latincrypt 2025 is a non-profit, thus we rely on the sponsorship of academic and private institutions such as yours. In past editions, sponsors have used the opportunity to advertise, get in touch with like-minded people, or support progress in the field. The sponsorship will be solely used to facilitate the events organization, and to offer support for students.

Conference Format

- Three-day program for the Main Conference.
- Around twenty contributed papers, presented by their authors, that would greatly interest a broad range of participants.
- Three senior researchers giving keynote talks.
- Social events
- The conference will be preceded by two schools in Cryptography:
 - **CatíoCrypto**, a two-day introductory school for local undergraduate and master students that want to dive deeper into Cryptography. The language of this school is **Spanish**. In the last edition, over 200 Ecuadorian students enjoyed the school!
 - ASCrypto 2025, a two-day school aimed for PhD students, providing training at the highest level in cryptography. This school is solely in English and has around 70 participants in general.
